RITE increases Officer-Agency Accountability

Skills are developed for De-escalation communication, Diversity, Officer wellness, Career resiliency, and Work-home life balance. Learning how to identify and improve implicit bias, with accountability Tools, creates bias-free policing for the department and the community. ***Accountability decreases risk liability.***

Emotional Intelligence (EI) is being aware of our emotions, and to acknowledge that emotions can drive behavior which impacts others (positively and negatively). ***Social Intelligence (SI)*** is how we effectively navigate and negotiate all social relationships and situations

*RITE Tool Kits help the instructor and the student with continued learning, Without the tools, we would be just another check the box, one-and-done training. With RITE tools, our training continues to work for the officer and the department.
