

# Emotional & Social Intelligence LEADERSHIP Class

## *Leading thru Advanced Communication*

*“The RITE program is timely especially in today’s society, and what we are facing as a profession. It provides skills to help officers become more aware of not just what’s in front of them, but what’s inside of them. RITE Tools helped us with officer accountability, and to practice EI lessons beyond class.” ~ Sgt. Fred Jones*

Build trust between your agency and the community, while sustaining career resiliency for your officers. Emotional Intelligence combined with Social Intelligence helps officers use enhanced verbal skills, **on 95% of calls.**

**Emotional Intelligence** (EI) is being aware of our emotions, knowing that emotions drive behavior which impacts others (good and bad). **Social Intelligence** (SI) is how we effectively navigate and negotiate all outside relationships and situations.

Racial Intelligence (RI) combines EI and SI with the RITE Tools, like the **Emotional Energy Ladder** (in the photo). The 1-Day training is for ALL Leaders in your agency.
