SUGGESTIONS FOR AGENCY LEADERS

DATA: Prior and after RITE Classes: Agency should maintain data on use-of-force actions, complaints, arrests, and citations given out, and as well as dash camera random monitoring and body cams. Stats to include locations, race/gender engagements.

RITE Trained Police Leaders should commit to record those 'Rogue Officers' that display unprofessional behavior. RITE encourages an open-door policy for police personnel to report unprofessional and unethical behavior without retribution.

Police Leaders should have a series of policies and procedures, SOP on professional workplace culture, bias-based policing, harassment, use-of-force (response to resistance), and duty to intervene. Additional materials to reinforce a Professional Workplace Culture, to include posters, roll-call cards, and blogs can be found on RITEacademy.com.
